

Next fall the Middle School will run on a trimester with a block schedule. Students will take their core courses of Math, Science, Language Arts and Social Studies in a ninety minute block of time. These classes will meet every other day. All students will rotate through Tech Lab, Spanish and Art, one trimester of each. These classes will meet every day for forty-five minutes. Students will also receive PE/Health for forty-five minutes a day for the entire year. This provides the opportunity for the Academy as well as the music students to participate in these courses. The remainder of the day will be filled with enrichment or exploratory courses. Every student will receive four enrichment courses in each trimester. The students will attend two, fortyfive minute classes each day that meet every other day. Examples of the enrichment courses are: Oceanography, World Cultures, Intro to Law, Algebra/Geometry in action, Archery, French, German, Journalism, Business, Stockmarket, Photography, Mich. Nature study, Robotics, Dance, Drawing, Painting, Music and Lyrics, Going Green, Writing Lab, EMS, Stats in action, Stomp, Theater, Music Technology, World Music, Steel drums, Autos, Drafting, Wood Working, etc. These courses are subject to change depending on the availability of teachers and funds. This schedule also allows us to offer accelerated and assist courses for those students who need or want the extra time and help in core courses. Our goal is to offer a wide variety of enrichment courses in-order to meet the needs of our students as well as provide an opportunity to explore untapped talents or promote career awareness.
